

## **Region 3 GPRA Baseline RCRA Corrective Action Facility**

# **Westvaco Corp.**

**John Hopkins Road  
Laurel, MD 20810  
Congressional District 7  
EPA ID #: MDD048005839  
Last Updated 12/31/2003**

## **Current Progress at the Site**

---

This facility is one of EPA Region III's high priority RCRA corrective action sites. An Environmental Indicator (EI) inspection was conducted at facility in June, 2001. Based on the results of the inspection it was decided that additional groundwater data was needed to better characterize groundwater conditions at the site.

The company conducted groundwater sampling at the facility in March 2002 in accordance with an approved work plan. In October 2002, Westvaco provided a final Investigation Report to EPA. Based on the results of the investigation, EPA made a preliminary decision that no further action is warranted at this facility at this time. EPA provided a public notice on November 15, 2002 stating their no further action decision. The comment period for this public notice ended on December 30, 2002. No comments were received and a final no further action determination was rendered.

## **Site Responsibility**

---

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.
